Our Goal:
We believe that art and creativity is the foundation of an inspired mind. The freedom of expression in any means opens imagination to a limitless ambition and the mind-set of countless possibilities.

The mission of Kids Creative is to foster the 6 C's of peacemaking in youth: (link to our 6 c's) Confidence, Creativity, Conflict Resolution, Community, Collaboration and Cookies through arts education programs and live music and theater events.

A better, more peaceful future can be brought about by those who, through the arts, have developed the creative, critical thinking and social skills necessary to make peace within themselves and in society.

Our Objective:
Our group will create an animated sequence that will encompass the principles KIDS Creative teaches. By following their schemes and designs, we can bring an informative and appealing segment that will explain and convince why KIDS Creative is the best environment for a growing mind.

- To provide a fun, safe space for students of all ages, backgrounds and learning styles
- To encourage anti-bullying techniques of creative conflict resolution, tolerance and appreciation for the ideas and beliefs of others
- To instill a love of music and the arts in children
- To build appreciation for children's creativity in the general public
